

Department of Medicine

Overview of Services

UPMC
LIFE CHANGING MEDICINE

Our Mission:

The Department of Medicine at UPMC brings together research and education to provide innovative health care.

Mark Gladwin, MD, Chairman

The Chairman establishes the vision for the Department of Medicine. In the areas of clinical care, research and education, the Chairman strives for excellence and innovation. Scientific advancements are at the forefront of the Department's research, while quality, safety and transformative medicine guide education and clinical care.

Annmarie Lyons, Executive Administrator

It is the duty of the Executive Administrator to work closely with the Chairman on the common goals of delivering excellent care, leading research, and teaching our future pipeline. Ensuring that responsibility and integrity underlie each decision, the Administrator works with the Chairman and each of the nine Divisions to develop strategic partnerships and new models of care.

Mike Donahoe, MD, Executive Vice Chair of Clinical Affairs

The role of Executive Vice Chair of Clinical Affairs is to collaborate with clinical leadership to deliver value and drive innovation in clinical care. This is achieved through numerous quality improvement initiatives, data analysis, and evidence-based knowledge. In addition to being a practicing physician, the Executive Vice Chair recruits and mentors other physician leaders.

Chris O'Donnell, PhD, Executive Vice Chair of Academic Affairs

The Executive Vice Chair of Academic Affairs focuses on expanding the research footprint and facilitating the career development of junior and mid-career faculty. This includes improving the research support infrastructure, creating road maps for promotion and tenure, leading the recruitment of clinician scientists, scientists, and key leadership positions, and maintaining robust mentoring environments for junior faculty.

Nichole Radulovich, Senior Administrator

The Senior Administrator works closely with the Executive Vice Chair of Academic Affairs to facilitate his or her mission. In addition, the Senior Administrator directs the operations of research administration, faculty and staff affairs for over a 1,000 faculty and Pitt staff appointments, manages academic space/equipment, multiple educational programs, and medicine technology services. The focus is on measuring the effectiveness of programs and processes to meet the Department's tripartite mission.

Robert Shulik, Senior Director of Outpatient Clinical Operations

The Senior Director manages the Department of Medicine's clinical operations. Through caring and listening to the clinical staff, the Senior Director ensures quality and safety for the patients. The Director oversees 76 outpatient locations and is responsible for staffing and facilities, among other needs of the clinics.
